Summary

Computer Engineering student with a strong passion for web development and building dynamic, user-friendly applications. Actively participates in hackathons and coding competitions, with hands-on experience in full-stack development, real-time systems, and modern web technologies. Focused on creating scalable, innovative, and engaging digital experiences.

Work Experience

Frontend Intern — XIRCLS December 2025 – March 2026

- Worked on a CRM-based web platform, focusing on building and improving frontend user interfaces.
- Developed responsive and reusable UI components using modern frontend technologies.
- Collaborated with backend and product teams to integrate frontend components with CRM workflows.

Technical Member — Project Cell August 2025 – Present

- Designed and developed the Project Cell website using **Next.js**, focusing on performance, responsiveness, and clean UI.
- Built a real-time event management app using **React Native (Expo)** and **Firebase** handling organiser, participant and admin roles across **120+ live users**.
- Developed ESP32-based mini-games and browser automation tools using Playwright.

Projects

LegalAI — Intelligent Legal Research Platform Live Demo

- Built a "Judge-Safe" legal research platform bridging India's IPC and BNS using **React**, **Vite** and **Tailwind CSS**.
- Engineered a **RAG pipeline** with **ChromaDB** and **Sentence Transformers** for citation-backed, hallucination-free analysis.
- Integrated **NVIDIA NIM (Llama 3.1 70B/8B)** with a **Node.js API Gateway** featuring tiered rate limiting and dynamic routing.

ReCode — AI DSA Companion Live Demo

- Developed a full-stack DSA mastery platform using **React 18**, **TypeScript** and **Tailwind CSS**.
- Integrated **Qubrid AI (Qwen3-Coder)** to generate multi-tiered code solutions (brute force → optimized).
- Built a smart revision tracker with **MongoDB** and **Redis** caching, secured via **JWT** and **OTP**.

Education

B.Tech in Computer Engineering, **Fr. Conceicao Rodrigues College of Engg.**	(8.5)	2024 – Present
Class 12th (Computer Science), RCF Junior College, Alibag	(79.67%)	2022 – 2024
Class 10th, RCF Secondary and Higher Secondary School, Alibag	(93.60%)	2021 – 2022

Skills

Languages	JavaScript, TypeScript, C, Python
Frontend	HTML5, CSS3, React.js, Next.js, Tailwind CSS, GraphQL
Backend	Node.js, Express.js, MongoDB, Redis, Firebase, ChromaDB
Tools	Git, REST APIs, Socket.io, JWT Authentication, GraphQL
DevOps / Cloud	Linux, Docker (Basics), CI/CD Concepts, Networking (HTTP, DNS), AWS/GCP Basics
Core Concepts	DSA, RAG Pipelines, Authentication & Authorization, GraphQL APIs

Achievements

- Secured **3rd Place at Echelon 2.0 Hackathon** held at NMIMS Navi Mumbai, competing against teams from multiple institutions across the region.
- Won a medal at the **West Zone Inter-University Chess Championship** and was subsequently selected to represent at the **All India Inter-University Chess Championship**.
- Solved **200+ DSA problems** across multiple platforms, strengthening core problem-solving skills.
- Contributed **19 merged PRs** to **Sugar Labs / Music Blocks** (open source), spanning memory leak fixes, `eval()` security refactors, RAG plugin hooks, and core music engine improvements.
